About me

Frontend Developer with 3+ years of experience building scalable web applications. Skilled at transforming designs into interactive user interfaces, with a strong focus on code optimization and industry best practices.

Skills

- **Languages:** JavaScript (ES6+), TypeScript, HTML5, CSS3.
- **Frameworks y Librerías:** React, Next.js.
- **Styling & Layout:** CSS, TailwindCSS, SASS.
- **Version Control:** Git, GitHub.

Soft Skills

- **Strong commitment**
 - **Effective communication**
 - **Fast learner**
 - **Adaptability**
-

Education

- **University ORT Uruguay** | Associate Degree in Programmer Analyst (First Semester Completed) **2022**
 - **Continuous Self-Directed Learning** | Specialization in Frontend Development and Emerging Technologies
-

Development experience

VegaCars | Car Rental Website | [Click to view project](#)

- Developed an interactive car rental web application using **Next.js** and **TypeScript**, ensuring strict typing and error-free code.
- Designed the user interface with **TailwindCSS**, delivering a fully fluid and responsive experience across mobile and desktop devices.

- Optimized application performance through code-splitting and lazy loading of components, significantly improving initial load times.

Gym Project | Fitness Exercise Search Application | [Click to view project](#)

- Built two web platforms using **Next.js** to leverage Server-Side Rendering (**SSR**) and improve search engine optimization (**SEO**).
- Integrated third-party APIs for dynamic data consumption, managing application state efficiently.

Audiophile | Audio Products E-commerce | [Click to view project](#)

- Developed a high-fidelity e-commerce web application based on an advanced Figma design, ensuring an exact replica with a **pixel-perfect** focus, **responsive design**, and **web accessibility**.
- Implemented **global state** management to efficiently handle the data flow for the shopping cart, product catalog, and checkout process.
- Optimized the reusable component architecture and navigation logic, ensuring a seamless user experience and minimal load times.
